Colonial Maple

Effective Immediately!

We are pleased to introduce a new drawer box in our Colonial Maple line. It will be the same as our Oak Island drawer box which was changed last year. It will be a 5/8", 4-sided, plywood box with side mounted epoxy coated glides. The interior height will increase, as will the face height creating a nicer exterior look and more storage space.

Curved Front Vanity

Just a reminder. We have a 30" curved front vanity in our Beacon Hill vanity line. This size will allow you to offer a 60" vanity when combined with 2-VDB1521 units. This cabinet is also kitchen height so it can be used in kitchen design as well.

Vanity Fillers

We have ordered vanity filler strips in the following lines:

- Newport Oak
- Newport Birch
- Concord

They will be arriving in August for delivery in September.

Black Granite

Reminder – We have added black granite to our assortment of vanity colors. Color chips are available upon request.

Bisque Bowls

We now have bisque bowls available out of the warehouse. Please specify on your order. Unlike the white bowls which are pre-assembled we will assemble by order. This may delay delivery by 1 day depending on the production flow.

Replacement Parts

Help us help you!

When ever possible, please have any replacement parts ship on your next order. We have found that using FedEx/UPS offers a 50/50 chance of product arriving safely. This only further frustrates your customer. As you are aware, replacement parts and their shipping charges are a piece of program costs. Whatever you can do to control will benefit all.

Posters

We have 36"x24" posters of both our Lexington and Beacon Hill kitchen lines. A set has been mailed to all customers. We have plenty more available upon request. These are great in showrooms where space is a premium.
